## Summary

---

**Full Stack Developer** experienced in HTML, CSS, JavaScript, NodeJS, MySQL, MongoDB, Express, and React. With a background in financial accounting, a Bachelor of Science in Physics and Certification in Web Development, offers a unique perspective on solving complex challenges. Brings a positive attitude, strong work ethic, problem-solving skills, creativity, and an eye for detail.

## Technical Skills

---

Microsoft Office | Sage Timberline Office | Adobe Creative Cloud | Wordpress | Mac & Windows | HTML5 | CSS3 | JavaScript | jQuery | AJAX | NodeJS | Bootstrap CSS | Materialize CSS | Moment.js | Firebase | MySQL | Sequelize | Handlebars | MongoDB | Mongoose | Github | APIs | JSON | React

## Projects

---

### Coaster Catalog - [Live](#) | [Github](#)

- A MERN stack app that provides data on roller coasters. Users have the option to login and give ratings of their favorite roller coasters. They can keep track of which coasters they have ridden. Coaster data and user data are stored in MongoDB. Passport is used for authentication and session serialization. React is used to create the UI.
- **Tools used:** Node.JS, Express, MongoDB, Passport, HTML5, CSS, Bootstrap, Javascript, React

### Forum Store - [Live](#) | [Github](#)

- A full stack web-oriented furniture store that determines the client's style and customizes the store for that style. This store provides a chat for communicating with other buyers with a similar style.
- **Tools used:** Node.JS, Express, MySQL/Sequelize, Passport, HTML5, CSS, Materialize CSS, Javascript, Handlebars

### Where Should We Eat? - [Live](#) | [Github](#)

- An app that helps the user choose where to go out to eat when they're having trouble deciding. Used the FourSquare API to select a random restaurant (or 3 random restaurants) and the Waze API to navigate to the restaurant after one is chosen.
- **Tools used:** HTML5, CSS, Javascript, jQuery, Bootstrap, AJAX

## Experience

---

CARETTI, INC. – Camp Hill, PA

March 2018 – June 2019

### Accounts Payable Specialist

- Enter invoice information in accounting software, matching to POs and packing slips, vouchering with general ledger code, routing for approval, and cutting and routing checks for signature before mailing.
- Manage vendor files and research invoice and statement discrepancies.
- Generate monthly reports and analyses for 40+ construction jobs.

## EXPERIENCE, CONTINUED

GRIFFIN INDUSTRIAL REALTY – Bloomfield, CT

Sep 2004 – Jan 2018

### **Accounts Payable Accountant**

- Made timely payments to vendors, vouchering invoices with appropriate general ledger code, routing for approval, entering into database, and cutting and routing checks for signature.
- Maintained vendor files, performed monthly account reconciliations, processed employee expense reports, and reconciled petty cash and credit card statements.
- Analyzed data for budgeting and property taxes, completing annual property tax analysis for 200+ parcels.
- Produced annual 1099-MISC forms for vendors and e-filed 1099s with State and Federal agencies.
- Recognized as top performer in Accounting Department.

## **Education**

---

**UPENN Coding Bootcamp**, University of Pennsylvania - Philadelphia, PA

**Bachelor of Science in Physics**, Longwood University – Farmville, VA
